This document fully complies and refers to the following documents:

- [Daledon Privacy Policy](#)
- [Daledon Terms of Service](#)
- [And conditions stated in the About webpage of Daledon.Com](#)

By purchasing any Daledon authorized, created, and/or listed NFT from anywhere we assume you accept all the current applicable disclaimers, policies, terms, and conditions in full. Please, do not purchase or continue to use any Daledon authorized, created, and/or listed NFT if you do not accept all of the disclaimers, terms, and conditions.

The following terminologies apply to this entire terms and any or all Agreements: "Client", "Customer", "You" and "Your" refers to you, the person purchased and/or using any Daledon authorized, created, and/or listed NFT and accepting this statement. "The Company", "Ourselves", "We", "Our" and "Us", refers to Daledon. "Party", "Parties", or "Us", refers to both the Client and ourselves, or either the Client or ourselves. "The Products" refers to any Daledon authorized, created, and/or listed NFT. All terms refer to the offer, acceptance, and consideration of payment necessary to undertake the process of our assistance to the Client in the most appropriate manner, whether by formal meetings of a fixed duration or any other means, for the express purpose of meeting the Client's needs in respect of the provision of the Company's stated services/products, in accordance with and subject to, prevailing law of Australia. Any use of the above terminology or other words in the singular, plural, capitalization and/or he/she or they, are taken as interchangeable and therefore as referring to the same. Any correction to this statement is appreciated.

Terms and Conditions

- a) Each of our non-fungible token (NFT) is on the secured Ethereum (ethereum.org) blockchain network. Your ownership of an NFT is wholly mediated by the Smart Contract and the Ethereum Network, so we may never confiscate, suspend, or otherwise affect the ownership of any of our sold NFTs. However, we may take legal actions and/or delete your NFT from the blockchain network if you don't follow the terms and conditions of our sold NFTs.
- b) When you buy an NFT from us, you entirely own the art and/or the contents of it, except the background image, colour, or graphics, unless stated otherwise.
- c) After you bought an NFT, unless stated otherwise, you are free to use it for commercial or personal purposes, as long as the purpose is legal. After you bought the NFT, the NFT is your responsibility, because we do not accept any responsibility of whatsoever after we sell an NFT.
- d) You can flip or resell your bought NFT, but only at an authenticated marketplace. And that marketplace must cryptographically verify all the NFTs before listing. Any flip or resell of our NFTs on not such marketplace is prohibited, illegal, and won't be considered as a sale.
- e) You can list, preview, and/or include you bought NFT, but only at any place where all NFTs get cryptographically verified before getting accepted, authorized, included, listed, and/or previewed. Any not such place is not considered legal, so the usage there will be considered illegal.
- f) Your bought or the NFT of your interest may include royalties, so please check at the marketplace where that NFT is listed or contact us.
- g) You can mention Daledon.Com, Daledon, Daledon NFT, and/or the original creator of your NFT anywhere as the source and/or the original creator of your NFT. You can use the Daledon.Com/Daledon logo, Daledon NFT logo, and/or mention/link the description page of your bought NFT that is hosted by Daledon or its partners.
- h) Daledon accepts third-party NFTs to be in a Daledon NFT collection. The fee is 20% of the selling price, charged only when sold, and will have a 5% royalty on future flips or resells. Payments by Daledon are made as cryptocurrency, direct bank transfer, or both, as per request. When accepted and added to a Daledon collection, the original NFT creator or provider will become and/or treated as a user of the Daledon NFT. And as a Daledon NFT user, the original NFT creator or provider must accept all the policies of Daledon straightway. All the third-party NFTs must be original, authenticable, and the original NFT creator or provider must provide all the documents whenever asked. If necessary, further terms will be added mutually.
- i) We have the right to remove any NFT at any time before its sold or officially booked. We also have the right to remove and sell any NFT as a non-NFT to anybody at any time. The original NFT creator or provider can request to remove an NFT but we at Daledon have our right to not to do so without explanation.
- j) As long as Daledon and/or the original NFT creator or provider of an NFT does not have any official social network or public engagement blog, forum, chatroom, and/or website dedicated for that NFT collection, you can create a "fan" social network or public engagement blog, forum, chatroom, and/or website for that NFT collection. But you must have such NFT and bought directly from Daledon. Plus, you have to instantly comply with any request to edit, remove, and/or promote sent by Daledon and/or the original NFT creator or provider. No defamation, hate, racism, or any such thing is allowed.
- k) All the NFTs are provided "as is" and "as available" without warranty of any kind.

After Sales Service

Where clearly mentioned, Daledon provides after sales service. The after sales services include contents in plain text format, graphics in vector format, and images in higher resolution. If you require any after sales service, please contact us. We may ask for your identification and your NFT's authentication.

Updates

We reserve the rights for updating these terms and/or any policy attached with it. Any updates to these terms may be notified via electronic mediums. We may use website notifications or pop-ups to notify about the change, but it will be maintained for a limited amount of time only.

Only the terms and conditions that were effective during the first-time purchase of an NFT are applicable to that NFT. New updates will not be applicable by default. However, circumstances that are beyond our control, such as government intervention, may enforce new updates to any old NFT. Same applied to an original NFT creator or provider.
